

# TURBO

## CHALLENGE 2

### START-UP INSTRUCTIONS

Start with the computer switched OFF.

1. Check that the switch on the joystick is set to "Manual Fire" (middle position).
2. Connect the mouse, the monitor (or TV) and the joystick to the computer WHILE THE COMPUTER IS STILL SWITCHED OFF. Note that there are two joystick connectors. If you are using only one joystick, use the joystick connector next to the mouse connector.
3. Turn the computer on.
4. Insert the game disk into the floppy drive.
5. Place the screen pointer over the floppy disk icon (on the icon bar at the bottom of the screen). Click the 'select' button on the mouse (the left-hand button).
6. Double-click with the 'select' button over the !LOTUS icon and you will see a demonstration of the game.
7. Press the <alt> key to stop the demonstration.
8. You need to set the game up now. At the 'Configure Controls' screen, use the cursor keys on your keyboard (the arrow keys) to move left and right, or up and down to choose your controls.
9. When you have made your choices, press return .
10. If you are using only one joystick, select the joystick option from the control panel for one player (bottom left of the screen).
11. Select "GAME" (using the cursor keys) and press return .
12. When the voice on the soundtrack says "GO", press the fire button. You can now control your car by using the joystick.
13. The game will run without a joystick, by using the keyboard instead.
